

20 July 2015

Dear Occupier,

Eastbound closure of the A202 Harleyford Road/Kennington Oval – 3 August 2015

As you may be aware, we are currently constructing Cycle Superhighway 5 from Oval to Pimlico. The next stage of these works involves building out the footway on the southern side of the A202 Harleyford Road to create a two-way segregated cycle track.

What we will do

From 3 August 2015, an eastbound road closure will be in place along the A202 Harleyford Road/Kennington Oval between Durham Street and the A3 Kennington Park Road for approximately two weeks.

The closure will occur in one direction heading eastbound from Vauxhall gyratory toward Oval Tube Station.

During this time the following restrictions will apply:

- No left turn from Durham Street into the A202 Harleyford Road. The right turn from Durham Street (heading westbound) will be maintained throughout the works
- Vehicle access from the A202 Camberwell New Road into the A202 Harleyford Road (heading westbound) will be maintained

A clearly signed traffic diversion will be in place throughout the closure. Traffic approaching the A202 Harleyford Road will be diverted down the A203 South Lambeth Road onto the A3 Clapham Road.

Bus impacts

- Buses that normally travel down Durham Street and onto the A202 Harleyford Road will be diverted, this includes the 36, 36X, 185, 436, 436X and N136
- The westbound bus stop outside the community garden on Harleyford Road will be reopened and in use for the duration of the closure
- The eastbound bus stop currently situated outside St Mark's Church of England Primary School will be removed during the works and permanently relocated to Durham Street

Access to residential properties

- Parking and vehicular access to properties located on the southern side of the A202 Harleyford Road will be restricted. We will work with local residents to make sure they are aware of how their access will be affected
- Pedestrian access will be maintained at all times during the road closure

To complete the works as quickly as possible and reopen the road, works will take place between 08:00 and 18:00, seven days a week.

The works will generate some noise due to excavation using mechanical diggers and the cutting of paving slabs, but we are committed to minimising disruption and apologise in advance for the inconvenience.

We have scheduled the works during the school summer holidays when traffic flows in the area are expected to be lower.

Find out more

The Cycle Superhighway 5 works form part of TfL's Road Modernisation plan, the largest investment in London's roads for a generation. Should you have any questions or concerns about the works, please contact us using the details at the top of this letter.

Roads in the area will be busier than usual whilst the directional closure is in place and we strongly advise you to plan your journeys around the area in advance. Visit tfl.gov.uk/cs5 for more information and travel advice.
